

The REX-DSB Series Dual Switch Bar

Request to Exit-Micro Switch Bar

The REX-DSB Series Micro Switch Bar is designed for door exits tied into an electric locking system. These switch bars are specifically designed with dual micro switches to meet requirements of DPST release of Magnetic Locks. Devices are made from extruded aluminum and may be trimmed to length.

Application:

The REX-DSB Series is a micro switch push bar that is easy to install and specially designed to prevent unauthorized access of emergency exits and lower the risk of theft and burglary in airports, hotels and other public places. It can also be used in hospitals, nursing homes or health centers to prevent unauthorized access by patients.

Features:

- Dual micro switches
- Dogging feature
- Extruded Aluminum
