ITEMS NOT INCLUDED IN DVR BOX

ITEMS INCLUDED IN DVR BOX

Follow this step if your kit included a 9 channel power distribution box.

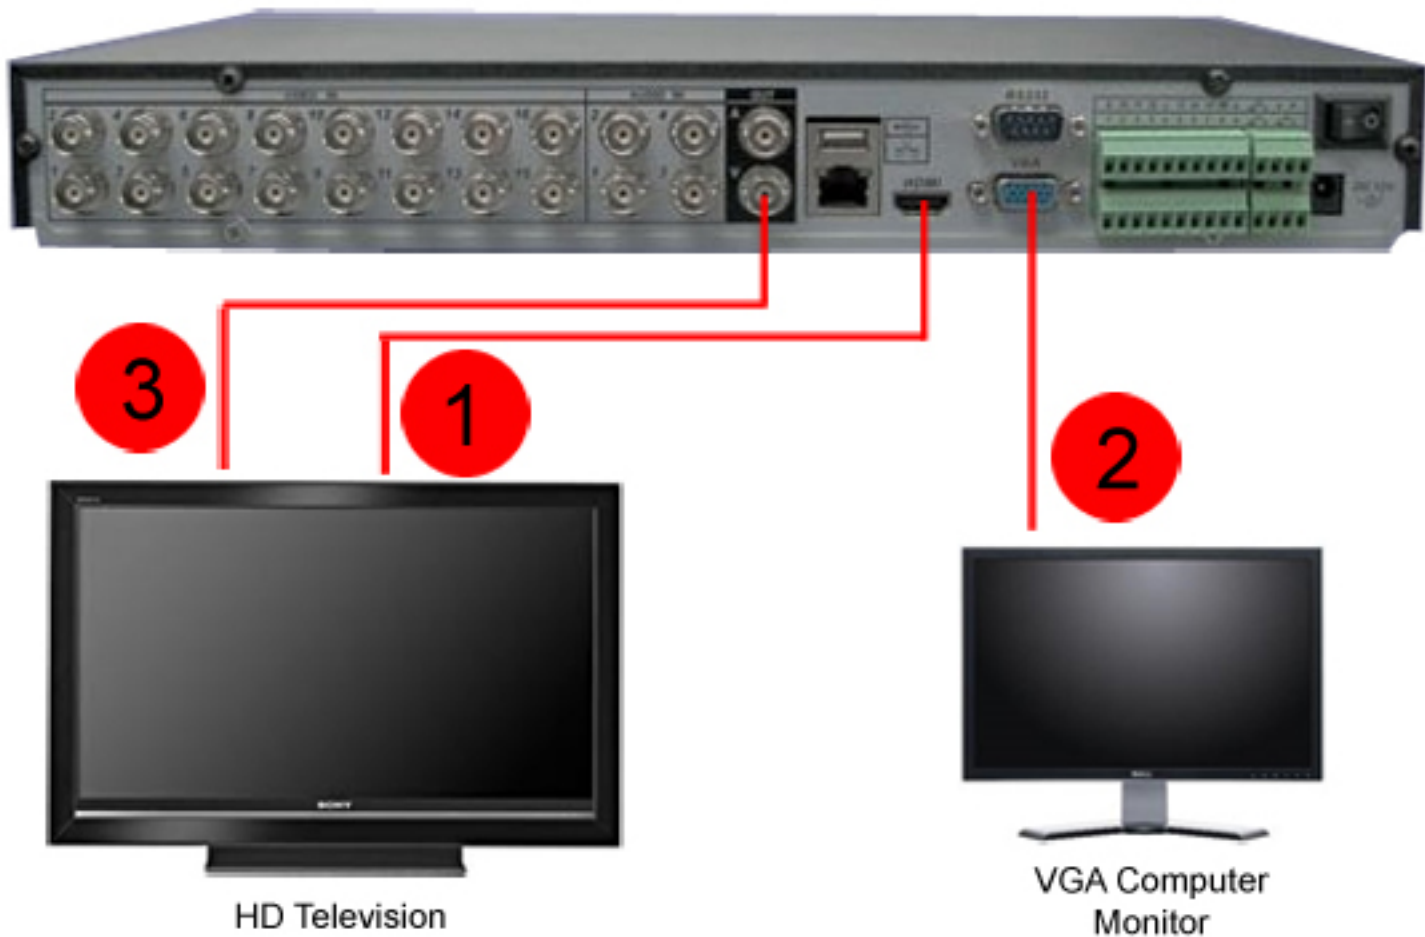

1. Connect Power for camera and DVR to a wall socket
2. Connect power to the DVR
3. Connect power to the video cable
4. Connect video & power cable to the cameras
5. Connect video cable to the DVR Video input channel 1

Repeat steps 3 through 5 for each camera

1. Connect CAT5 network cable from your network to the DVR
2. Connect the USB mouse to the DVR

MONITOR CONNECTION OPTIONS

1. Connect a HDMI cable from the DVR to a HD television. Use this option for the best results. (HDMI cable not included)
2. Connect a VGA computer monitor to the DVR.
3. Use the "SPOT OUT" to display only certain cameras of your choice on a television.

All three options can be used at the same time.
